Quality Qualification for Vet

Erasmust

KA2 Strategic Partnership for Vocational Education and Training

OBJECTIVE

The project aims to promote work-based learning between VET (Vocational Education and Training) providers and stakeholders to provide students with a market-oriented training offer and high quality WBL (Work Based Learning) at local, regional, national and transnational levels, improving thus cooperation between companies and vocational training institutions.

The project aims to involve all stakeholders who participate in WBL experiences, such as: teachers and trainers, training centers, companies, social partners and policy makers.

ACTIONS

- Measure and disseminate the real impact of WBL experiences on students' skills and employability
- Actively involve students, teachers, trainers, suppliers and VET companies in this practice
- Offer quality WBL opportunities to VET students and improve the effectiveness of the dual system at all levels
- Offer WBL quality opportunities to VET teachers and trainers for their continuous professional development
- Involve policy makers and stakeholders to promote WBL

RESULTS

- Creation of a transnational network of VET providers, companies, social partners and public bodies
- Impact study on WBL experiences (apprenticeship, traineeship, dual scheme, job shadowing) at local, regional, national or transnational level.
- A documentary series that show internship experiences and real WBL
- A Recommendations pack for students, suppliers and interested parties in VET, which identify WBL's innovative strategies.
